Moissac is a major site of the Midi-Pyrénées region, which boasts a thousand-year old history. This tour will include the unavoidable visit of the roman cloister and tympanum of the UNESCO classified Saint-Pierre abbey. You will navigate on the rivers Tarn and Garonne, discovering the "Ile des Oiseaux" natural preserve, for a quiet tour in the greenery, before joining Sainte Livrade the next day. We will be pleased to have you enjoy the specialities of the region: the Chasselas table grapes (the first fruit that has been awarded an AOC appellation) and the Philibon melons, grown on the hillsides surrounding Moissac.

PROVISIONAL PLANNING

Possibility of arriving the day before..
